

Our Hidden Curriculum

at Norton CP School

Alongside our subject specific curriculum runs a multitude of activities that support our ethos of ‘children come first’. Ensuring every child is equipped with the key skills for the rest of their lives, we supplement the national curriculum with a range of fluid events-and lessons- personalised to specific children as well as smaller groups or where necessary, the whole cohort. We pride ourselves in adapting to needs of every child in our school and as such these are only a few of the many extra opportunities available.
